Kitchen Worktops
of Timeless Beauty

Looking Good,
Feeling Great.

Welcome classic style into your home with the Heritage range of naturally beautiful worktops. Inspired by nature, the Heritage range provides a select palette of stones and woodgrains that will provide that touch of individual expression. Designed for contemporary living, Heritage worktops possess an enduring quality of style and functionality that will stand the test of time. Available in both 'square edged' and traditional 'bullnose' profiles, the Heritage worktop range has the versatility of style, shape and form to fit seamlessly into your dream kitchen.

Make a Lasting Impression

The Heritage range of worktops combine elegance and beauty with practical durability. Not only will your worktop impress for its look and feel but will also withstand the rigours of modern living. Heritage worktops come in two profiles; avail of either the sleek and versatile square edged profile or the more traditional 'bullnose' worktops edged profile.

THE HERITAGE DRIP SEAL
 Our innovative drip resistant seal provides invisible lifelong protection to your worktop.

Features & Specifications

1. Worktops

Create a statement in your kitchen with a beautiful Heritage worktop. Expertly edged on all four sides, the range offers a beautiful centrepiece for your kitchen with a wide variety of choice. Heritage comes in thicknesses of 40mm and 25mm, in order to achieve the perfect look, whatever it might be. Heritage worktops come in 4050 lengths as standard with widths of 650mm and 900mm, and of course a postform standard 600mm.

2. Decorative End Panels

Decorative End Panels upgrade your look with a variety of design styles. Add a finished touch to your cabinet layout with Decorative End Panels.

3. Window Sills

Small details can make all the difference and colour coordinating your window sills with your other Heritage panels helps create a seamless effect. This can often be achieved from offcuts, we can even make a custom made solution for you.

4. Upstands (Multipurpose Panel)

Heritage Upstands offer a stylish and cost effective alternative to tiling, producing a seamless finish with the worktop. Combine upstands with a backsplash to enhance and complete the great look. Available in 3600mm x 350mm x 18mm, Upstands consist of an 18mm chipboard and are supplied square edged with a laminate face and back. Your fitters will love this addition to make their work easier, while offering the customer a "complete look" to your design.

5. Cupboard Framing

A simple way to add more continuity to your new kitchen, the 25mm panels are a great option when it comes to framing your wall cupboards. Many designs incorporate an under counter open "bookcase" style unit made from Heritage wide range of panels.

6. Splashbacks

Create a practical, great-looking addition to your kitchen design. Available in the following size: 3000mm x 1200mm x 8mm, Heritage

splashbacks consist of a 6mm MDF with a laminate face and a scarified laminate balancer, square cut with no edging. Tile trims can be selected for any exposed edges.

7. Breakfast Bar / Island Units

Transform your kitchen with a beautiful Heritage worktop to suit your island unit. As Heritage worktops are edged on all four sides, adjust the length of your unit to suit your needs and use the remaining material to cleverly provide a perfect finish. Why not have us make

you a custom made solution. Factory finished, edging to any shape or size.

OTHER DESIGN USES

Utilise Every Space

As Heritage worktops and panels are edged on both sides, they are perfect for that little bit of shelving or alternatively why not create an open cupboard area.

Heritage offers a complete range of panels to make your life easier and add a bespoke feel to your design.

Not Just Worktops

Heritage is a range of matching panels that can be selected to enhance and design.

DESIGNERS: Using Heritage panel systems allows you the freedom to enhance your own designs with a full range of options. Our upstand - multipurpose panel is 350mm wide so you decide on the ideal height of the upstands, or use this panel for open shelving or window boards. The options are greatly increased.

INSTALLERS: Because the panels are factory finished with digitally matched polypropylene edging, you can 'rip and fit' this product in a fraction of the time.

CONSUMERS: All materials in the Heritage range of panels are selected for their quality to offer you a lifetime of enjoyment, we have included the most popular up-to-the-minute design choices on new innovative textures. This not only gives you the look, but a unique 'feel' to your chosen worksurface.

 **Heritage**
WORKTOPS

Exceptional elegance in modern but timeless designs

The Heritage panel system adopts to modern living where your kitchen is your cooking space, but also your place to relax and enjoy.

We have taken great care to select the best decors for you to choose from but also innovative new textures.

Heritage is both a look and feel experience. Our Fusion texture on the woodgrains is specially chosen to give an authentic wood look to our panels. The real experience is also to run your hand on the surface and feel the surface for yourself.
